You can get the FW-7880 as your personal company firewall.

One of our top appliances — Now on sale!

1.650 €

Only for a short period of time and only while stocks last, order it now!

Our offer is valid from 03/14/2011 to 03/31/2011

Built around the Intel E7501 chipset, the FW-7880 increases system performance by delivering greater platform bus bandwidth. This results into a faster response time for a larger number of users. In addition, the slim 1U Rackmount form saves valuable server room space without compromising performance.

The offered price includes a full assembled FW-7880 with two ethernet modules, one 4 Port RJ45 and one 2 Port SFP (without transceivers), CPU, RAM, HDD and CF with SDR technology. FW-7880 comes with the free pfSense firewall (<http://www.pfsense.org>) You are free to install any other software on it.
