LANDITEC
creating value in network distribution

Specification

Load-Balancer Topologies	Single Legged (L3), Single Legged (DSR), Dual Legged, LLB (Link Load-Balancing)
Protocol Examples	HTTP/S, SMTP/S, FTP/S, IMAP, TELNET, DNS, POP, VPN, LDAP, RADIUS, RDP, ICA and many more
CPU	Core 2 Duo - 2,6 GHz
Memory	4GB
Network	6x 10/100/1000
Max. Troughput	968 Mbps/sec
Net / Gross Weight	12,5 Kg / 6,5 Kg
Certifications	CE, FCC, RoHS
Power-Supply	Internal 300W
Input Range	100—240V AC, 5 - 3A, 50 - 60Hz
Form Factor	1U Rackmount
Appliance H x W x D	44.4 mm x 426.0mm x 396,0 mm
Operating Temp	-20^{0}C - +70^{0}C
Humidity	5% - 95% RH.
Benchmarks packet size 1514 (byte)	120978809 Bytes/sec 79906 packets/sec

Key Features

- Layer 2-4 Load-Balancing Appliance
- Link Load-Balancing
- IPv6 Load-Balancing
- Direct Server Return support
- Server Load-Balancing for TCP and UDP based protocols
- NAT-based forwarding
- Server Health Check
- Hardened Linux DOMOS
- Live Update System
- SSH and HTTPS remote access
- SDR - Appliance recovery including complete configuration backup
- Multi Appliance Active-Passive High Availability (VRRP)
- Best Price/Performance ratio
- Purpose built Appliance

Application Examples

- Web servers
- Microsoft Terminal Services
- Servers providing SMTP services
- Internet Service Providers
- Security gateways (Proxy Servers, Firewalls, SSL-VPNs)

About

SECUDOS
With about 35.000 units worldwide SECUDOS is one of the leading vendors in IT-Security and Compliance. SECUDOS offers the latest Hardware Technologies together with leading Software Solutions as "Plug-and-Play" appliances. The products of SECUDOS support the users to realize a manageable and efficient IT-Infrastructure.

Inlab
Inlab Software GmbH, founded in 1991 is an ISV (Independent Software Vendor) located in Gruenwald near Munich, Germany. Inlab focuses on networking system software, load-balancing software (BalanceNG®), programming languages and security software. Inlab develops software for Linux and Solaris operating systems and develops both commercial products and Open-Source software.

Landitec
Landitec is a specialized Distributor for Network Equipment. Since 1996 Landitec's IT-professionals gained experience in selling peripheral devices. The Landitec Distribution GmbH delivers its products under German Quality Standards. Landitec executes a specific quality standard cycle for each single product. Product-specified hardware-tests and final checks before shipment make sure that high-reliability and quality of the products are guaranteed.
